## PROVISIONAL PROGRAMME

The provisional technical program was set during the first week in June, although the schedule of times and venues for presentations and posters will only be finalized mid-July. Currently, there are 4,824 accepted abstracts from over 5,200 submissions, of which 3,087 are oral presentations and 1,737 are posters. These are divided between the three core topics, Geoscience in Society (31%), Geology in the Economy (24%) and Fundamental Geoscience (45%). There are

## SOCIAL MEDIA

[Facebook](#)

[LinkedIn](#)

[Twitter](#)

between three and fifteen major symposia or general sessions per theme of which there are 48.

There are nine **plenary presentations**, all of which are directed at themes of particular current relevance in the global earth sciences. See the [website](#). Topics include:

- Formation of continental crust
- Science and the professions: service to society
- Climate and human evolution
- The mining industry and society
- Shale gas - the technical challenges
- Extraction technologies and the life cycle of metals
- Earthquakes in Africa
- Palaeobiology from fossil bones

Under the core theme, **Geoscience in Society**, there are a considerable number of geoheritage and geoconservation presentations. Climate change is a high interest topic (as predicted!). Communication to the public sector is addressed, as is mapping of Africa and the world. Geohazards, engineering geology and environmental geoscience all have strong support. Geoeducation at secondary and tertiary level is well represented. There is considerable interest in professionalism in the geosciences and geoethics. All of these topics are typically under-represented in conferences world-wide, and anyone interested in these subjects should definitely have a close look at this part of the program.

A very wide variety of topics directly related to **Geoscience in the Economy** are included and coverage goes beyond the typical scope of pure economic geology. Of particular note is geostatistical evaluation of mineral deposits as well as mineral economics, topics not normally covered in general geoscience meetings. Mineral exploration is well covered, and ore forming processes is also a strong theme. There are sessions on gold mineralizing systems as well as the crustal gold cycle. Energy resources fall into this stream, with four major themes being coal, petroleum systems, unconventional hydrocarbon sources, and energy in a carbon constrained world. Resourcing future generations is a current IUGS concern, and there is a theme dedicated to that. If you are an 'expert' in a specific aspect of mining and exploration geology, and would like to learn more about related fields, 35TH IGC is the chance to do so.

The core theme **Fundamental Geoscience** covers a wide range of topics, particularly highlighting current efforts in geoscience research. Well represented themes include sedimentary processes, basin formation, magmatism,

metamorphism, tectonics and the dynamic earth, marine geosciences, palaeontology, and Antarctic and Arctic geology. There are symposia devoted to Hadean, Archaean, Proterozoic and Phanerozoic geology and time scales.

35TH IGC covers a multitude of earth science topics and is a reflection of the state of modern earth science. In recent years there is recognition that earth sciences impact significantly on society and on the global economy, as well as being fundamental to understanding the planet we inhabit. This meeting reflects this. And, in practice, it is nearly impossible to unequivocally categorize a specific subject or presentation into one core stream or another. There is lots of overlap. Spending a couple of hours on the website will be well rewarded.

To view the list of accepted abstracts submitted per Theme, please click on the relevant theme on the [programme page](#) and click on the **LIST OF ABSTRACTS** button within the theme selected.

The final programme will be in the 5th Announcement and updated on the Website in July.

**ALL PRESENTING AUTHORS HAVE TO BE REGISTERED BY 20 JUNE IN ORDER FOR THEM TO BE INCLUDED IN THE FINAL PROGRAMME.**

## **REFERRAL TO GUIDELINES ON WEBSITE**

---

Oral and Poster presenters are requested to view the Guideline instructions pertaining to their presentations.

<http://www.35iqc.org/Verso/222/GUIDELINES>

## **NOTICE OF CLOSE OF PRE-REGISTRATION**

---

Registration fees are to increase on 20 June to the standard fee with a further fee increase for late registrations or onsite registrations from 27 August.

**BOOK NOW!**

### **REGISTRATION FEES**

CATEGORY	STANDARD	LATE / WALK IN
	20 June 2016	27 August 2016
Student Young Earth Scientist (YES) Association Member Pensioners >65	R 8 000.00	R 9 000.00
Student Day Delegate	R 3 000.00	R 3 500.00
Delegate	R 11 000.00	R 13 500.00
Day Delegate	R 4 250.00	R 4 250.00
Exhibitor staff	R 5 000.00	R 5 000.00

Accompanying person	R 2 500.00	R 2 500.00
Welcome reception guest ticket	R 500.00	R 500.00
Congress dinner (optional at an additional fee)	R1 300.00	R1 300.00

## FIELD TRIP UPDATE

**BOOK YOUR FIELD TRIP BEFORE 17 JUNE TO AVOID THE RATES INCREASE TO LATE REGISTRATION FEES.**

Bookings and payment on Early Bird Rates closes **17 June 2016**. From **18 June to 17 July 2016** a late booking fee will apply. **Rates to be advised online shortly.**

| <b>ExSA-Post9</b> | <a href="#"><u>Gold Deposits Of Loulo-Gounkoto, Mali - Contact Greg Botha(gabotha@geoscience.org.za)</u></a> if you are interested |

If you have registered for the following excursions, please make contact with us at [Allevents@centeqevents.co.za](mailto:Allevents@centeqevents.co.za) in order to arrange for a refund or change your field trip registration to another excursion.

- **Pre 9** Early Cretaceous Basins along the S Cape,
- **Pre 10** Geology and Origin of a Very Large Hot Orogen The HIGH-T-LOW-P Namqua Metamorphic Province,
- **Pre 12** Seismotectonics and hydrology of fault systems â€‘ W and S Cape,
- **Pre 17** Africa rising on the African Superplume
- **Pre 18** Karoo magmatism and continental breakup,
- **Post 8** The Pongola Supergroup: Earth's Earliest Stable Continental Margin

Mining companies operating in Ghana and Mali have offered their support for gold mine visits. We urgently need an indication of support for these excursions before we are able to finalise arrangements with the Gold Fields, Anglogold Ashanti, Newmont Mining and Randgold Resources mines.

Please contact [gabotha@geoscience.org.za](mailto:gabotha@geoscience.org.za) to express interest.

<http://www.35iqc.org/Page/216/ExSAPost-8-Gold-mining-in-southwest-Ghana>

## AGU HOT TOPIC LOUNGE

---

The American Geophysical Union (AGU) is sponsoring the Hot Topic Lounge in cooperation with the 35<sup>TH</sup> IGC to promote discovery and innovation in the Earth and space science community and to enable scientists to advance science by collaborating, developing solutions, and communicating it to the public.

We encourage you to continue your discussions from the scientific sessions in the Hot Topic Lounge and use the space to meet with others and forge valuable international collaborations.

Or take advantage of the opportunity to deepen your knowledge with extended discussion from conference speakers, and develop your skills with authoring, reviewing and career development workshops.

**The schedule of events will be posted soon. Please visit Hot Topic Lounge on [the website](#)**

## **WORKSHOPS**

---

35<sup>TH</sup> IGC will host a number of cutting-edge workshops and short courses over two days, immediately prior to the start of the main Congress (27-28 August 2016).

To book and pay, please use your existing registration log in (if you are already registered). New delegates can book using the registration form on the website (create your profile and register for the conference and then book your additional workshop).

Attendees not registered for the 35<sup>TH</sup> IGC Congress will only be able to register from 17 June at premium rates (space limited and subject to confirmation).

All workshops are subject to minimum numbers being reached in order for them to go ahead - we urge you to book early to avoid disappointment.

**For more details on the proposed workshops and their prices, please visit [the website](#)**

## **BUSINESS MEETINGS**

---

Business Meeting requests are awaited from Scientific Commissions, Joint Programs and Task Groups of the IUGS. Bookings for these meeting can be made via the [booking site](#). To date, numerous meetings have been booked. Chairs and Executives of these associations are urged to book their meetings as soon as possible to ensure that they secure a meeting place!

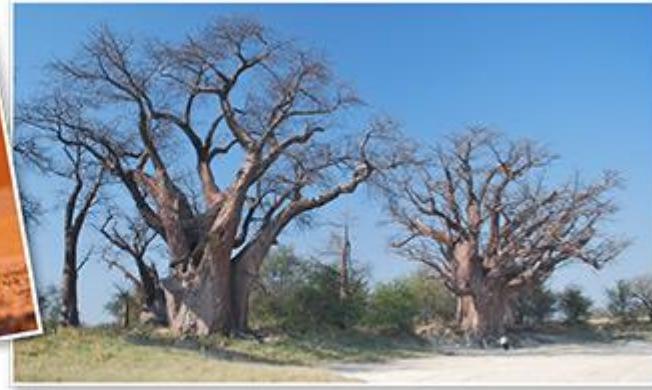

**All Business Meetings will take place from 18:00 - 21:00 from Monday 29 August to Thursday 01 September 2016.**

## **SOCIAL PROGRAMME**

---

For more information visit <http://www.35igc.org/Verso/226/Social-Programme>. To include your event in this schedule please contact [lesley@cebisaconferences.co.za](mailto:lesley@cebisaconferences.co.za).

	TIME	DATE	FUNCTION	VENUE
	17h45 – 20h00	28 <sup>th</sup> August	Ice Breaker	Exhibition Area CTICC
	T.B.A	T.B.A	GeoHost Reception	T.B.A
	17h00	28 <sup>th</sup> August	Accompanying Persons Orientation and Welcome	Accompanying Persons Lounge CTICC
	18h30 – 21h00	29 <sup>th</sup> August	IUGS Reception for National Delegates (Invitation Only)	Artscape Theatre
	12h00 – 14h00	30 <sup>th</sup> August	German Committee – IUGS Lunch	Marimba Restaurant CTICC
	19h00 – 23h00	30 <sup>th</sup> August	Korean Evening	Westin Ballroom
	19h00 – 23h00	30 <sup>th</sup> August	Chinese Delegation Dinner	Marimba Restaurant CTICC
	20h00 – 23h00	1 <sup>st</sup> September	Theme Dinner	Zip Zap Circus Tent
	18h30 – 21h00	1 <sup>st</sup> September	YES Network	Marimba Restaurant CTICC
	10h00 – 15h00	Daily, 10h00, 12h00, 14h00	Wine Tasting	JewelAfrica Show Room

## **SPONSORSHIP**

---

The Organizing Committee would like to extend to you an invitation to participate in the conference by sponsoring.

For details: <http://www.35igc.org/Verso/45/Sponsors>

Support here [https://www.allevents.co.za/ei/getdemo.ei?id=358&s=\\_4MG10LNE!](https://www.allevents.co.za/ei/getdemo.ei?id=358&s=_4MG10LNE!)

## **EXPO**

---

**BOOK YOUR STAND TO AVOID DISAPPOINTMENTS AS  
STANDS ARE SELLING OUT FAST!**

## **ACCOMMODATION**

---

Accommodation is limited over the 35<sup>TH</sup> IGC Congress so book your now to avoid disappointment.

Please [\*\*click here\*\*](#) to book your accommodation before 16 August 2016. *We have negotiated preferential rates for conference delegates/exhibitors - all bookings have to be done via the Appointed Housing Agent (35<sup>TH</sup> IGC Trust) to qualify for these reduced rates.*

## **TRAVEL**

---

### **DAY TOURS**

**Tour bookings** and payment will close on **17 August 2016**.

## OVERNIGHT LEISURE TOURS

**Tour bookings and payment will close on 17 August 2016.**

## ACCOMPANYING PERSONS TOURS

**Tour bookings and payment will close on 17 August 2016.**

*We have negotiated preferential rates for conference delegates/exhibitors - all bookings have to be done via the Appointed Tours Agent to qualify for these reduced rates.*

Terms and conditions apply and each tour is subject to a minimum and maximum number of participants. Should the minimum number not book the tour will be cancelled and you refunded.

## TAILOR-MADE TOURS

Travel to suit your specific needs. Contact [vicky@intoafrica.co.za](mailto:vicky@intoafrica.co.za) to discuss your travel needs. Bookings and payment will close on **17 August 2016**.

## GEOHOST

---

Please note the GeoHost adjudication process has been completed and the outcome has been communicated to all applicants. Unsuccessful applicants will receive an extension on the early bird registration fee until 20 June 2016.

## **VOLUNTEER PROGRAMME**

---

The 2016 35<sup>TH</sup> IGC will include a volunteer programme designed to

- support the organisers and delegates before and during the congress
- facilitate participation by students and retirees involved in the Geosciences.
- provide exposure and networking opportunities to students

## **APPLICATION PROCESS**

**Applications must be completed online via the [volunteer application submission portal](#).**

**POST GRADUATE STUDENT, AND POST DOCTORAL**

## **FELLOWS:- REGISTRATION SUPPORT**

---

Post graduate researchers from Southern African Universities will, with submission and acceptance of an abstract, be eligible to possibly have their registration costs covered though sponsorship.

Applications should be made to [bertussmithgeohost@gmail.com](mailto:bertussmithgeohost@gmail.com), referencing , 'The Southern African Post Graduate Fund'.

The application should be accompanied by the accepted Abstract.

The success of the application is not guaranteed as funding is dependent on the amount of sponsorship received.

## **PUBLICATIONS**

---

Two publications are being specially prepared for 35TH IGC and will be available to interested delegates.

**Delegates should indicate on their registration form whether they would like to purchase "Africa's Top Geological Sites" and or secure a**

## **free copy of "The Great Mineral Fields of Africa".**

To do so, registered delegates should use their registration log in and book accordingly.

### **Details of each are as follows:**

1. Africa's Top Geological Sites ( Geoheritage publication) - cost of R180  
To be collected from GSSA booth.
2. The Great Mineral Fields of Africa ( The Special Episodes Volume) - Free of charge  
To be collected from the IUGS booth.

## **35<sup>TH</sup> IGC MEETING APP - MY IGC**

We are pleased to announce that, for the first time in the history of the IGC, the Organisers will be providing all attendees with an APP called MY IGC; downloadable in advance of the Conference. MY IGC will provide you with all the information you need for a successful meeting.

- View the agenda
- View the abstracts
- View the exhibitor list
- Download the programme and build your personal itinerary
- Network with colleagues
- Receive updates and messages at the conference

We will publish the download instructions before 15th August.
