

POSITION VACANT

GEOLOGICAL OPERATIONS MANAGER

THE MSA GROUP IS LOOKING FOR A MOTIVATED INDIVIDUAL TO JOIN OUR GEOLOGY TEAM

Responsible for the management and coordination of a number of geological projects at MSA. This includes project, technical, personnel, health and safety and QC management. Time will be spent liaising with clients, preparing programmes, proposals and technical reviews while raising the profile of MSA through networking and presenting at conferences. In addition to the above a great deal of time will be spent developing capacity in the Geology department.

MINIMUM REQUIREMENTS

- Relevant Post-Graduate Qualification.
- 7 – 10 years geological exploration experience
- Excellent technical knowledge and skills and up to date familiarity with technical and other trends within the industry
- A multicommodity exploration background
- Excellent technical writing skills with a demonstrable track record of authoring technical reports
- Good interpersonal skills and ability to establish strong relationships with staff, clients, and other industry players
- Good leadership skills to direct and motivate staff, usually by example and through possession of knowledge.
- Ability to accept responsibility and to delegate
- Excellent communication, presentation and negotiation skills
- Good working knowledge of pertinent legislation and practice such as mineral laws, labour laws, and international reporting codes
- An understanding of principles of marketing
- Basic understanding of finance; accounting, cash flow, interest rates, economic cycles, job costing, etc.
- Understanding of administrative practices as they apply to exploration, evaluation and mining projects
- Prepared to travel (local & international)
- The successful candidate must be a self-starter, who is deadline-oriented

If you are interested in applying for this role, please send your CV through to careers@msagroupservices.com before the 21st of May 2018. EE candidates will be given preference.
