Geological Society of South Africa

GEOTECH FOR GEOLOGISTS

14 APRIL 2027

This event brings together geologists, geotechnical engineers, rock engineers, engineering geologists and industry professionals to explore the latest developments in geotechnical practice and share practical insights relevant to the South African context. Understanding geotechnical principles is crucial for geologists, as it enhances their ability to assess ground conditions, contributes to safer and more efficient geological analysis, and improves collaboration with multidisciplinary teams.
