

AI IN GEOLOGY

24 JUNE 2026

Join the GSSA on 24 June 2026 for a CPD-accredited one-day course on AI in Geology. This focussed program introduces core AI concepts, geoscience data readiness, and real-world applications across exploration, interpretation and decision support. Designed for students and professionals, the course provides a practical roadmap on where to start and how to apply AI responsibly in geoscience workflows.
