All Prior Year fees must be paid to qualify for Early Bird Offer

Postal charges for Printed Publications

Postal charges within South Africa are relatively cheap and are not differentiated by surface or air rates.

Mailing outside South Africa is very expensive whether the destination is a neighboring country or overseas.

The international surface and air rates for SAJG are an approximation for all destinations.

All members have electronic access to SAJG and Geobulletin

All members within South Africa will also receive print copies at no additional cost

For International Subscribers (outside South Africa), additional postage is necessary if printed copies are required

Surface mail international for Geobulletin included in the subscription price.
