READING THE ROCKS

BUSHVELD STORIES OF PLATINUM, CHROMITE,
AND VANADIUM DEPOSITS

PROF. RAIS LATYPOV

Wits School of Geosciences

Gain hands-on insight into the formation of magmatic ore deposits in the Bushveld Complex through a workshop focused on interpreting field and textural clues to understand how and where economically important layers formed.

Dates:

28-29 August 2025

R1 000 for BUGEMET-affiliated delegates

R1 500 for all other delegates

16 GSSA CPD points

2 SACNASP points
