Unleash your professional powers and take over 2024!

Have you ever found yourself thinking....

- I'm not sure what I need to focus on to build competence as a professional in my industry.
- I feel like I'm going off track in my career, but I don't know how to fix things.
- My industry and profession are evolving – I feel at risk of becoming irrelevant, and I have no idea how to increase my relevance.
- How do I find the right balance between 'being nice' and not getting caught up in people pleasing?
- I feel like I never have enough time to do anything.
- I don't feel like I am being heard – and sometimes it's just safer to stay quiet.
- Networking doesn't come naturally to me – I feel like I have strong relationships, but I'm not sure how to leverage them.
- How do I get people to see me as someone they trust and WANT to work with – rather than someone they HAVE to work with?
- I'm enthusiastic and want to go far but I am stuck because I have no clear direction.
- There are so many things out of my control that I spend my time worrying about, that I never focus on what is in my control.
